Summary

Self taught Web Developer with a B.S. in Technology Management. My core skills are in the Front End but I do have experience in the Back End. My goal is to secure an Entry level position to contribute my skills.

EXPERIENCE

Apollo IT, Houston, Tx — *IT consultant*

January 2019 - June 2019

Performed hardware and software troubleshooting for clients on iOS devices, PC's, and Microsoft Exchange Server. Created a redesigned WordPress website and built/maintained custom Windows workstations. Managed Microsoft Sharepoint client folders and set up monthly meeting presentations.

TAMU IT, College Station, Tx

— *Student Technician* October 2017 - October 2018

— *Student Technician Leader* October 2018 - December 2018

Performed hardware and software troubleshooting on Mac, PC, iOS, and Android devices. Scheduled, tracked, and deployed various departmental Workstations. Created Knowledge base articles of common user troubleshooting issues and resolutions

Reynolds & Reynolds, College Station, Tx — *Computer Bench Technician*

November 2016 - April 2017

Performed software diagnostics on Windows workstations for refurbishment. Tracked, managed, installed new parts and components for workstations. Assisted with QA duties to ensure successful refurbishment.

EDUCATION
