Summary

Self taught Web Developer with a B.S. in Technology Management. My core skills are in the Front End but I do have experience in the Back End. My goal is to secure an entry-level position to contribute my problem solving skills as a developer.

Work Experience

Apollo IT Consulting-IT Consultant

January 2019 - June 2019

Performed hardware and software troubleshooting for clients on iOS devices, PC's, and Microsoft Exchange Server. Created a redesigned WordPress website and built/maintained custom Windows workstations. Managed Microsoft Sharepoint client folders and set up monthly meeting presentations.

Texas A&M IT

-Student Technician October 2017 - October 2018

-Student Technician Leader October 2018 - December 2018

Performed hardware and software troubleshooting on Mac, PC, iOS, and Android devices. Scheduled, tracked, and deployed various departmental workstations. Created knowledgebase articles of common user troubleshooting issues and resolutions. Coordinated new Student Technician trainings.

Reynolds & Reynolds-Computer Bench Technician

November 2016 - April 2017

Performed software diagnostics on Windows workstations for refurbishment. Tracked, managed, installed new parts and components for workstations. Assisted with QA duties to ensure successful refurbishment.
